Frequently Asked Questions:

1. What's free standing and free standing & wall mounted design?

Free standing means typically erected with aluminum vertical post, free standing & wall mounted means typically supported by aluminum vertical post and wall brackets.

2. Do you have manual pergola? What's the voltage of electric motor?

Pergolux design has no manual type, only motorized type. The voltage of electric motor is 110V or 230V.

3. What color do you have for pergola?

RAL7016 Anthracite Grey and RAL9016 Signal White is our colors in stock, wholesale can customized RAL Color.

4. Do you have bigger post? How will it hold up in my climate?

No, only 127mmx127mm. Our system has been specifically engineered to withstand 100km/h wind, and 200mm snow loading.

5. Is the side blind waterproof?

The side blind prevent light rain.

6. How to delivery this item? Can it be shipped to home address?

As the goods is too long, usually we arrange sea shipping to the port of your country, when the goods arrived at the port, you need to find local broker/shipping agent to help you handle customs clearance and pick up the goods to your house.
